Expansion of statistical series since 1960

Different sources of statistical information in Spain, with discontinuity in periods and methodology

2

The issue with the hydrocarbon sector in Spain

- Own methodology
- Continuity with current series from Cores
- Complete and consistent data with historical information
- Making the findings available to the general public on the [website](#)

Expansion of statistical series since 1960

Information included in 10 series: **3** new published series plus 7 revised series

3

Series	Start year	Frequency
Crude Oil Imports by Country	1960	Annually 1960 -1995 / Monthly since 1996
Indigenous Crude Oil Production	1966	Annually 1966- 1967 / Monthly since 1968
Spanish Refinery Capacity	1984	Annually since 1984
Refinery Production by Product Group	1960	Annually since 1960
Petroleum Product Consumption by Group	1969	Monthly since 1969
Petroleum Product Exports by Country	1987	Annually 1987 -1995 / Monthly since 1996
Petroleum Product Exports by Group		
Petroleum Product Imports by Country		
Petroleum Product Imports by Group		
Indigenous Natural Gas Production	1963	Annually 1963 -1967; 1982 -1995 / Monthly 1968 -1981 and since 1996

Expansion of statistical series since 1960

Integration of new contents in the Cores statistics, revisable every month

1. New data category
2. Information about the start year of the series
3. Three new statistical series
4. Seven extended series → since 1960
5. Change of designation of two series

- Expanding the information available from 22 to almost 60 years

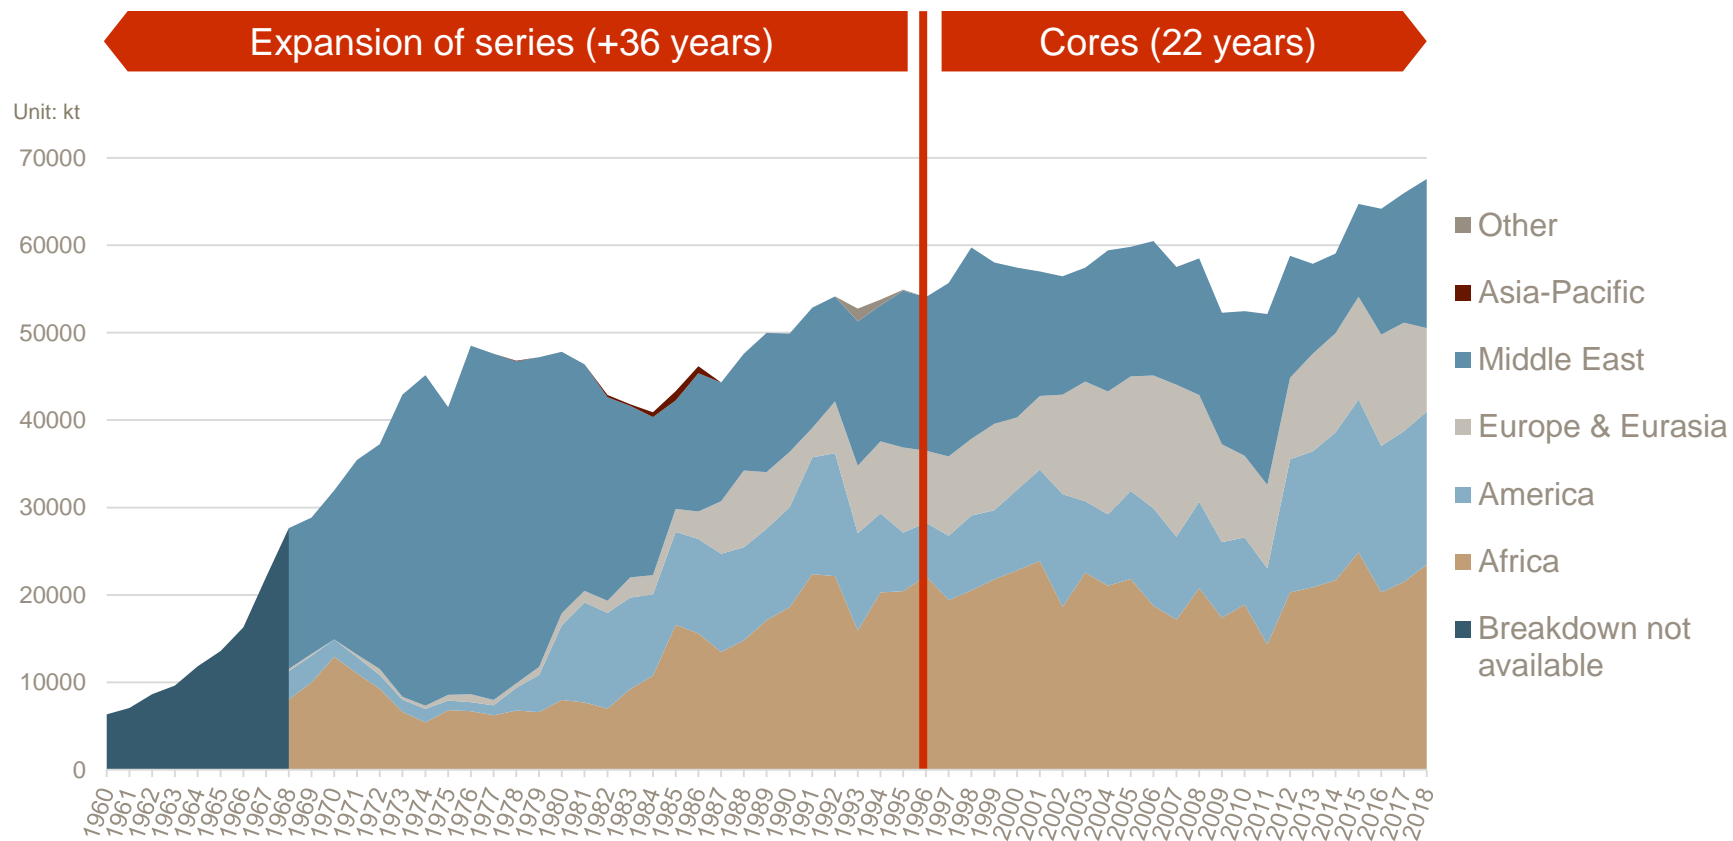

Expansion of statistical series since 1960

Example: Spain's crude oil imports available since 1960

5

Expansion of information to almost 60 years

* Annual total data, without breakdown by geographic area from 1960 to 1967
